

SIGNS & STICKERS

In late 2003 we needed a reliable supply of racing numbers for karts, motorcycles, boats and so on. So we purchased our own vinyl sign and sticker cutting machine to produce these in-house.

From the simplest racing numbers and backgrounds to full kart and van or trailer signage we can help you. We are not professional sign makers or graphic artists, but we can supply good quality stick-on signs with your design or ours.

Kart racing numbers are all available at just \$1 per number in black, red or white in 4", 6" and 8" high, and backgrounds from \$2 each in a square, a shield or a matching nassa panel shape in white, yellow, green, black or blue.

We can cut custom styled numbers and background panels, as well as names and company logos.
